

Clavet School Nutrition Program

Good nutrition supports healthy learning!!

An Exciting Year!

The program had an exciting year providing nutritious breakfast and healthy snacks to the Clavet students K-12.

The Saskatoon Health Region sponsored a “Kids in the Kitchen” program to teach safe and healthy cooking techniques to students. *Thanks to all the student and parent volunteers for all their hard work this year!*

Thank you to the Stonebridge CO-OP

for their continued regular support this year with donations of fruit and dairy products. The nutrition program would not have been the success it was without their ongoing support.

Staff from the Stonebridge CO-OP are coming to the Clavet School on June 18th for our year end assembly and will receive the poster below that has thank you projects from elementary grade classes. **The CO-OP is also presenting a treat for each K-12 student during the assembly.** Please make a point to thank the CO-OP for their support of our school when you are in the Stonebridge CO-OP this summer.
